

PROGRAM LICENSURE RATES FOR GRADUATES

Annually, the institution reports licensure rates for programs where certification, licensure, or registration based upon an industry-recognized examination is required to become employed in the State of West Virginia. This data is reported for the most recently completed year (July 1, 2022 through June 30, 2023) on the institution's Annual Report as required by the institution's accrediting body, the Accrediting Bureau of Health Education Schools (ABHES).

The licensure pass rate for each program where licensure is required for employment as reported on the most recent ABHES Annual Report is listed below.

The licensure required for the Nursing program is the NCLEX® examination developed and administered by the National Council of State Boards of Nursing (NCSBN).

The licensure required for the Pharmacy Technician programs is the Pharmacy Technician Certification Exam.

Program Name	Licensure Pass Rate ⁽¹⁾
Nursing (Associate Degree)	100%
Pharmacy Technician (Associate Degree)	62%
Pharmacy Technician (Diploma)	33%

The credentialing rates are based upon the following formula:

$$\text{GP/GT} = \text{Examination Pass Rate}$$

GP= Total graduates passing examination (any attempt)

GT= Total graduates taking examination

$$\text{Examination Pass Rate} = \text{Percentage of students passing examination}$$

Information on first-time licensure pass rates is maintained and disclosed by the West Virginia Board of Nursing, and the program(s) are required to meet separate applicable standards of that agency. Additional information can be found at <http://www.wvrnboard.wv.gov/education/Pages/default.aspx>.

Licensure rates were current at the time of publication. For the most current rates of for other licensure information, contact the campus.
